

# **12v 3000w charging and discharging integrated inverter**

## Overview

---

What is a 3000 watt inverter charger?

The 3000 watt 12 volt low frequency AIMS Power inverter charger is two products in one. The inverter transforms DC (direct current) power stored by batteries into AC (alternating current) electricity that can be used to power tools and appliances of all varieties.

What is a Rego 3000W inverter charger?

The REGO 3000W Inverter Charger transforms the DC power stored in the battery bank into standard household AC power. It also charges and maintains the battery bank when connected to shore power. The inverter charger is compatible with all kinds of popular 12V battery types, GEL, AGM, SLA, FLD, CAL, and Lithium.

What is redodo 3000W inverter charger?

Users' True Feelings □ Inverter + Charger to Achieve Uninterruptible Power Supply □ Redodo 3000W inverter charger integrated with a 3000W pure sine wave 12V DC to 120V AC inverter and a 45A battery charger, making installation easier, saving more space, and reducing wiring costs.

What is Rego 12V 3000W pure sine wave inverter charger?

□ High-efficiency Charging and Stability □ The REGO 12V 3000W pure sine wave inverter charger utilizes 4-stage charging □ Bulk □ Boost □ Float □ EQU), making sure the battery can be efficiently and automatically charged to 100% and maximize the battery lifespan.

How does an inverter charger work?

The inverter charger combines the inverter and battery charger into one complete solution. It transforms the DC power stored in the battery bank into standard household AC power. It also recharges popular 12V house batteries when AC power is available.

How does a battery inverter work?

The inverter transforms DC (direct current) power stored by batteries into AC (alternating current) electricity that can be used to power tools and appliances of all varieties. It also has a built-in 100 amp battery charger which uses AC power, like from the grid or from a fuel-powered generator, that can be used to recharge a battery bank as well.

## 12v 3000w charging and discharging integrated inverter

---

### 12V 3000W Pure Sine Wave Inverter Charger w/ LCD Display

The REGO 12V 3000W inverter charger combines the inverter and battery charger into one complete powerful solution. 3000W continuous pure sine wave AC output and peak power up ...
