

12v 30ah polymer lithium battery pack

Overview

What is a 12V lithium ion battery pack?

A 12V lithium ion battery pack is a battery pack made up of three or four lithium batteries connected in series and several lithium batteries connected in parallel. This configuration allows the capacity of a 12V lithium battery to be customized.

What is a 12V Lithium polymer battery?

A 12V Lithium polymer battery is a type of battery. It has large current and capacity capabilities. Lithium polymer batteries capable of high power discharge need to control the current within the product specifications. If it's not urgent, it can be charged with 0.2C, and the current generally cannot exceed 1C.

How do you store a lithium battery?

For long term storage keep battery charged 30%-50% of capacity Do not storage battery with metal Use terminal post covers to prevent any short circuit circumstance Additional Product Information The Lithium battery makes every attempt to verify that its products are used and designed for your application.
