

135 kW inverter

Overview

What is a Deye Sun 125/125/130/135/136k-g series inverter?

The Deye SUN-120/125/130/135/136K-G series inverters are cutting-edge three-phase string inverters engineered for high performance in both commercial and industrial-scale solar power installations.

Are Deye solar inverters a good choice?

The Deye SUN-120/125/130/135/136K-G series inverters are a superior choice for maximizing the efficiency, reliability, and longevity of your solar power system, ensuring sustained high performance and return on investment.

How much power does an inverter have?

Rated Output Active Power spans from 120 kW to 136 kW depending on the model. Max. AC Output Apparent Power up to 136 kVA. Total Current Harmonic Distortion (THDi) is kept under 3%. The inverter dimensions are 1006 mm (W) x 516 mm (H) x 325.5 mm (D) (excluding connectors and brackets), with a weight of 103 kg.

What is an IP65 inverter & how does it work?

With an ingress protection rating of IP65 and designed to operate in a wide temperature range from -25°C to +60°C (with derating above 45°C), these inverters are built to withstand harsh environmental conditions. The device also operates efficiently up to an altitude of 4000 meters, and with lower noise levels, maintaining a maximum of 65 dB.
