

15kw home energy storage

Overview

Can a 15 kWh lithium ion battery save money?

Yes! Save money on your home's energy bill with the 15 kWh Lithium ion Battery. If your energy comes from a solar system, you can save excess electricity during the day for use at night or on cloudy days. If your energy comes from the grid, you can store power when prices are low and use it when prices are high.

What is pknergy 15kWh lithium ion battery?

Pknergy 15kWh Lithium ion Battery adopts a universal wheel design for easy movement and installation. The battery chemistry is lithium iron phosphate. They are powerful and efficient, with a depth of discharge of up to 98% to keep your home powered!.

What is a compact energy storage system?

The compact design integrates the battery and inverter into a single unit, saving valuable space while simplifying installation and operation. This fully integrated energy storage system offers an all-in-one design that simplifies installation and operation, making it a plug-and-play solution for residential energy needs.

What is a 10kW / 15kW peak cooling system?

10kW continuous / 15kW peak - run heavy appliances during outages. Silent natural air cooling means no noisy fans. Start with 15kWh and scale to 225kWh. Seamlessly add units as your energy needs grow - no complex reconfiguration. IP67 rated protection against rain, dust and extreme temperatures.

What is a fully integrated energy storage system?

This fully integrated energy storage system features a comprehensive all-in-one design, incorporating essential switches for battery fuses, photovoltaic

input, utility grid, load output, and diesel generators.

How long does a pknergy 15 kWh lithium ion battery last?

Pknergy 15 kWh Lithium ion Battery has a design life of up to 15 years and is guaranteed by the after-sales service of Pknergy's professional team. Grade A high-quality lithium iron phosphate cells are the basis for ensuring the long-term operation of Pknergy batteries, Long cycle life (≥ 7000 cycles @ 90%).
