

22kW photovoltaic inverter

Overview

What is a 22 kW solar pump inverter?

22 kW solar pump inverter, AC 45A output at 3-phase, adapt maximum power point tracking technology, work at (-10°C, 40°C). Support AC and DC input, high efficiency up to 99%, RS485 communication mode. With an IP20 protection rating, the 30 hp pump inverter can automatically sleep at high water levels to achieve Intelligent operation.

What is a 4KW solar inverter?

What Is A 4kw Solar Inverter, And How Does It Benefit You?

A solar inverter is an eco-friendly device that converts the direct current (DC) electricity generated by your solar panels into alternating current (AC) electricity. This AC electricity can then be used to power your home or business.

Can a 22kW solar array be put on an inverter?

A 22kW solar array can be connected to an inverter with an AC output of 16.50kW. However, not all inverters have the same specifications, and it's possible to connect more panels than the rated inverter capacity. Connecting more panels than the inverter is rated for is not recommended.

What is a water pump solar inverter?

The water pump solar inverter with a cooling fan has a power factor > 0.99 , and vibration less than 5.9m/s^2 . 22 kW solar water pump inverter, converts DC 450V-750V or AC 380/400/460/480V to AC output. It comes with internal MPPT real-time detection of solar panels' power voltage. IP20 protection and RS485 communication mode.

Can a 30 hp solar water pump inverter sleep at high water levels?

With an IP20 protection rating, the 30 hp pump inverter can automatically

sleep at high water levels to achieve Intelligent operation. The water pump solar inverter with a cooling fan has a power factor > 0.99 , and vibration less than 5.9m/s^2 . 22 kW solar water pump inverter, converts DC 450V-750V or AC 380/400/460/480V to AC output.

How does a solar pump inverter work?

The solar pump inverter has an at-a-glance numeric digital keypad that can easily control the inverter's start, stop, as well as accelerate functions. Anyone who uses it can set the working parameters of the inverter and adjust the output frequency to control the running speed of the 22 kW solar pump through simple key operation.

22kW photovoltaic inverter

Three Phase Grid-tied Inverter 22kW

The integrated shade fixing management system ensures the inverter to maximizes energy production even when the PV panels are lightly shaded. With 160V ultra-low start-up voltage, ...

- Efficient
Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 100% Peak Output Power
 - 2 MPPT Trackers, 100% DC Input Utilizing
 - Max. PV Input Current 15A, Compatible with High-Power Modules
- Intelligent
Simple O&M**
 - IP66 Protection Degree: support outdoor installation
 - Smart I-V Curve Diagnostic Function: isolate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPD: prevent lightning damage
 - Battery Reverse Connection Protection
- Flexible
Abundant Configuration**
 - Plug & Play, EPC Switching Under 10min
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverters Parallel
 - ATC Function (Optional): when an error is detected the inverter immediately stops operation
