

22kW three-phase inverter

Overview

What is a 22 kW solar pump inverter?

22 kW solar pump inverter, AC 45A output at 3-phase, adapt maximum power point tracking technology, work at (-10°C, 40°C). Support AC and DC input, high efficiency up to 99%, RS485 communication mode. With an IP20 protection rating, the 30 hp pump inverter can automatically sleep at high water levels to achieve Intelligent operation.

What is the electronic screen of The 22kW 3 phase inverter?

The electronic screen of the 22kw three phase frequency drive inverter is a key component in the inverter control system, providing users with an intuitive and real-time information display.

What is a 3 phase inverter?

Equipped with the electronic display screen, clear numbers, and convenient and timely adjustment of inverter parameters. Rated current 45A at 380V to 480V, 91A at 220V to 240V. The three-phase inverters with sensorless vector control are widely used in high-efficiency scenarios such as heavy machinery, motors, and equipment.

Is a 12Kw 3 phase inverter available in SA?

From the latest video from sunsynk, Keith indicates that the 12kw 3 phase inverter is available in South Africa. I haven't found any pricing online yet so interested to know what the retail price will be.

How many volts is a 22kW inverter?

22kW (30 hp) three phase inverter 208V, 440V, 460V, IP20 protection level, RS485 communication mode. Equipped with the electronic display screen, clear numbers, and convenient and timely adjustment of inverter parameters. Rated current 45A at 380V to 480V, 91A at 220V to 240V.

What is the rated current of a 3 phase frequency inverter?

Rated current 45A at 380V to 480V, 91A at 220V to 240V. The three-phase inverters with sensorless vector control are widely used in high-efficiency scenarios such as heavy machinery, motors, and equipment. The three-phase frequency inverter is equipped with an electronic screen and has durable housing.
