

48V 20A inverter

Overview

What is a 48 volt inverter?

In other words, it is a device that can take current from a bank of batteries (48V) and convert it to the type supplied in the grid to power your appliances and devices. I suggest you use A 24-volt inverter or 36-volt inverter or 48-volt inverter when you need to power appliances over 3000 Watts.

What is a pure sine wave inverter?

True pure sine wave inverter can provide high quality and stable output power, Less wear to protect your AC equipment more stable. It's recommended by most cordless tool manufacturer that a pure sine wave inverter is used to ensure long battery life.

How many Xijia 48v Inverters are left in stock?

Only 14 Xijia 48v Inverters are left in stock - order soon. 14 left in stock - order soon. 8 left in stock - order soon. 20 left in stock (more on the way).
