

5G base station AC power cabinet

Overview

What is a 5G outdoor integrated cabinet?

5G Outdoor integrated cabinet is well suited for power equipment, batteries, telecom gear, all integrated into a robust, economical package. The cabinet contains internal mounting rails, which allow installation of standard 19" equipment. Lockable front door with rubber seal ,with AC or DC Air conditioner mounted on the door Support custom-made.

What is a 5G base station?

A 5G network base-station connects other wireless devices to a central hub. A look at 5G base-station architecture includes various equipment, such as a 5G base station power amplifier, which converts signals from RF antennas to BUU cabinets (baseband unit in wireless stations).

How much power does a 5G base station use?

Each nation has a different 5G strategy. For 5G, China uses 3.5GHz as the frequency. Then, a 5G base station resembles a 4G system, but it's on a much larger scale. For sub-6GHz in 5G, let's say you have a macro base station. The power levels at the antenna range from 40 watts, 80 watts or 100 watts.

What is a 5G enclosure?

Equipment protection: An enclosure's primary purpose is to protect 5G cables and equipment from damage caused by environmental and physical conditions. The cabinet is mechanically robust and sealed, preventing costly damage from weather conditions, impacts and other factors.
