

5G base station communications in South America by 2025

Overview

What is 5G base station market report?

5G Base Station Market Report is Segmented by Type (Small Cell and Macro Cell), by End User (Commercial, Residential, Industrial, Government, Smart Cities, and Other End Users), and by Geography (North America, Europe, Asia Pacific, Latin America, Middle East and Africa).

Which segment dominates the 5G base station market in 2024?

The industrial segment maintains its dominance in the global 5G base station market, commanding approximately 27% market share in 2024. This significant market position is driven by the accelerating adoption of Industry 4.0 initiatives and the growing integration of IoT devices in manufacturing facilities.

How many companies are launching 5G SA networks in 2025?

According to the Global Suppliers Association (GSA) 72 operators across 131 countries have launched commercial 5G SA networks as of March 2025. In North America, several major operators are advancing toward broader SA adoption, aligning their roadmaps with the long-term vision of service evolution and enterprise-grade applications.

Will 5G delay deployment in Latin America?

Latin America's still-limited progress on recommended 5G spectrum allocation will also delay deployment, as will a relatively small initial consumer base as the region's mobile users take time to upgrade to 5G-enabled handsets. 5G adoption is forecast to reach an average of only 8 percent of Latin American consumers by 2025.

What is the fastest growing segment in 5G base station market?

The 5G macro cell segment is emerging as the fastest-growing segment in the 5G base station market, projected to grow at approximately 40% during the

forecast period 2024-2029.

How many 5G connections are there in 2021?

Industry trade organization 5G Americas forecasts nearly 3.5 million 5G connections in the region by 2021, which will grow to 17 million in 2022 and 75 million in 2023. GSMA predicts a more conservative 58 million 5G connections by 2025.
