

AC lithium iron phosphate outdoor power supply cabinet

Overview

What is a lithium iron phosphate (LFP) system?

The Lithium Iron Phosphate (LFP) system is equipped with a Battery Management System (BMS) and a 768V 280Ah lithium battery. The PCS provides a 400V three-phase AC output at 100KW for outdoor commercial and industrial (C&I) installations.

What is outdoor lithium ion battery enclosure?

Outdoor Lithium ion Battery Enclosure mainly provides a stable working temperature and dust-free environment for lithium battery, they are integrated with thermal insulation and equipped with air conditioner of different refrigerating capacity.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

What is a solar engery Battery Cabinet?

The solar engery battery cabinet was designed for battery installations, due to a cabinet of this design's scarce availability that was suitable for a variety of lithium-ion batteries. The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers.
