

After the Azerbaijan wind solar and energy storage project

Overview

Construction is underway on some of Central Asia's largest battery energy storage projects, while financing has been secured for what is described as the region's first integrated wind and storage facility. Is Azerbaijan a solar powerhouse?

Baku; October 26, 2023: Abu Dhabi Future Energy Company PJSC – Masdar, the UAE's clean energy powerhouse, has signed agreements for solar and onshore wind projects with a total capacity of 1 gigawatt (GW) in Azerbaijan, following the inauguration of the region's largest operational solar plant, the 230MW Garadagh Solar Park.

What is Azerbaijan's wind and solar potential?

That includes 23,000 megawatts of solar energy, 3,000 megawatts of wind, 3,000 megawatts of biomass burning, and 700 megawatts of geothermal energy. The optimistic estimates for Azerbaijan's wind and solar potential are backed up by the International Renewable Energy Agency (IRENA) in a November report.

How can Azerbaijan increase the share of renewables in electricity production?

The government of Azerbaijan aims to increase share of renewables in total electricity production to 30% by 2030. To accelerate investments and production in renewable energy, Azerbaijan is offering the following tax incentives : Azerbaijan's renewable energy sources are hydropower, wind, solar, and biomass power plants.

Will Azerbaijan get a 2 GW wind project?

Separate agreements for a 2 GW offshore wind project and another 2 MW wind project were also signed. In November, China's Huantai Energy Co., Ltd. secured a contract to build 100 MW of solar in eastern Azerbaijan, after submitting the lowest bid of \$0.0354/kWh in the country's first renewables auction.

How will Chinese solar projects work in Azerbaijan?

They will be implemented by Chinese companies working in collaboration with Azerbaijan-based developers. Azerbaijan's Ministry of Energy has signed three investment agreements for three separate solar projects involving cooperation from Chinese companies.

What's going on with Azerbaijan's new floating solar power plant?

The third announced project is a 100 MW floating solar power plant with a 30 MWh battery storage system to be located on Lake Boyukshor, close to Azerbaijan's capital Baku. The agreement is in place between the ministry, Socar Green and China Datang Overseas Investment Co. Ltd, which is set to be the main investor.
