

Australian Specialty Energy Storage Battery Company

Overview

When will battery energy storage systems be available in Australia?

The construction of the grid was anticipated to begin in early 2022 and is expected to be in operation by 2023. Thus, upcoming projects in Australia are expected to boost the demand for battery energy storage systems (BESS) during the forecast period.

What is a battery energy storage system (BESS)?

With offices in Australia, USA and South Korea, our turnkey Battery Energy Storage System (BESS) and software solutions enable our clients to contribute to grid services, reduce site energy costs, support EV Charging stations and facilitate the electrification of many different applications.

Will Australia's first energy storage system be operational by 2026?

EnergyAustralia is actively pursuing the development of Australia's first four-hour utility-scale battery, the Wooreen Energy Storage System, with a capacity of 350 MW, set to be operational by 2026 in Victoria's Latrobe Valley. This project highlights the company's commitment to advancing energy storage solutions.

How many energy storage batteries are there in Australia?

According to the Clean Energy Council, in 2021, 34,731 energy storage batteries with a combined capacity of 347 MWh were installed in Australia, witnessing a growth of 45.7% compared to 2020.

What is battery energy storage?

Battery energy storage is considered a critical technology in transitioning to a sustainable energy system. The battery energy storage systems regulate voltage and frequency, reduce peak demand charges, integrate renewable sources, and provide a backup power supply.

Why should you choose a gel battery manufacturer in Australia?

For over 30 years, we've proudly designed, developed, and delivered premier energy storage solutions to exceed the needs of today and into the future. As the only industrial gel battery manufacturer in Australia, we provide sustainable and reliable power solutions across a range of industries and suited to all environmental conditions.
