

BESS energy storage equipment for Portugal office building

Overview

Does Portugal support battery energy storage projects?

Portugal has awarded grant support to around 500MW of battery energy storage system (BESS) projects, using EU Recovery and Resilience Plan (RRP) funding, a bloc-wide scheme that has supported energy storage across the continent.

What is battery energy storage system (BESS)?

Portugal is seeking to use Battery Energy Storage System (BESS) to promote flexibility and balance its power system , as it continues to break records for Solar Storage System production.

Does greenvolt have a Bess project in Portugal?

Greenvolt and Galp have both deployed 5MW BESS projects in Portugal in the past. In eastern Europe, Moldova is in the process of completing a bidding process for the procurement of a 75MW BESS and 22MW internal combustion engine (ICE) project, called the Moldova Energy Security Project (MESA).

How much money will Portugal spend on energy storage projects?

This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025.

How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

What is Bess-as-a-service?

ABB's BESS-as-a-Service solution includes a comprehensive analysis of your business objectives, energy use, and future expansion plans. ABB guarantees that the useable capacity of your battery will meet your requirements for the life of the battery – even taking into account the natural degradation of battery capacity over time.
