

BESS price of energy storage power station in Portugal

Overview

How much money will Portugal spend on energy storage projects?

This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025.

How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

Does greenvolt have a Bess project in Portugal?

Greenvolt and Galp have both deployed 5MW BESS projects in Portugal in the past. In eastern Europe, Moldova is in the process of completing a bidding process for the procurement of a 75MW BESS and 22MW internal combustion engine (ICE) project, called the Moldova Energy Security Project (MESA).

What is battery energy storage system (BESS)?

Portugal is seeking to use Battery Energy Storage System (BESS) to promote flexibility and balance its power system , as it continues to break records for Solar Storage System production.

How much money will be allocated for energy storage projects?

To this end, the country's Ministry of Energy announced on Wednesday that it has allocated €99.75 million (\$107.6 million) in a bid to support 500 MW of energy storage projects. Qualified projects can receive up to €30 million and can be developed both at the transmission and distribution levels by the end of 2025.

What is a Bess & how does it work?

The BESS will inject the stored renewable energy into the Public Service Electricity Grid (RESP) in, it added, a “dynamic and optimised way, reducing energy losses and optimising its use.” The green hydrogen electrolyser will manage the surpluses that exceed the BESS’ storage capabilities.
