

Base station battery rack manufacturer

Overview

What types of battery racks do you offer?

We offer a wide range of battery racks, including seismic-rated, modular, adjustable, and custom-designed racks for both VRLA and flooded battery systems. Our racks are engineered to support reliable performance in utility, telecom, data center, and industrial environments.

What is a battery rack made of?

Made with welded heavy-gauge steel construction, our battery backup cabinets and battery racks are made to last and designed with options to give your facility a unified look. We offer multiple battery racks with different configurations, including both rack mount and cube layout units. Either option can be custom configured.

What types of battery racks do Eagle Eye power solutions offer?

Eagle Eye Power Solutions' Industrial Battery Racks have been designed for all types of stationary battery storage rack applications, including both standard and seismic battery racking. In designing these easy-to-use battery racks, we have paid special attention to strength, flexibility, acid-proof protection and more!.

Are battery racks UL-listed?

Yes. Many of our battery racks are UL-listed and designed to meet seismic requirements such as UBC Zone 4 and IBC compliance. Be sure to ask about certifications based on your project's regional and regulatory needs. Our racks are primarily constructed from powder-coated steel or stainless steel for strength and corrosion resistance.

How does a battery rack work?

It detects leaks and provides real-time alerts, preventing hazardous conditions in battery rooms and confined spaces. Eagle Eye Power Solutions' Battery

Racks are designed for all stationary and seismic racking applications with multi-tier configurations.

Why should you choose a battery rack system?

Lightweight designs and superior engineering make for rack systems that take much less time to install and makes battery installation and battery change-outs a simpler process. All of our designs allow for superior air flow around the batteries, making every effort to protect your investment.
