

Battery cabinet replacement deadline

Overview

When should I replace my ups Battery Cabinet?

Battery Cabinets As your system ages and reaches around 75% of its expected service life (roughly 10-12-year mark), it becomes increasingly important to start planning to either replace UPS lifecycle parts or do a full UPS replacement. For technical documentation for products at or below Sustained Support, please fill out the below form.

Can I replace the batteries of my ups?

It is permissible to replace the batteries of a UPS with specific types of batteries that are identified by the manufacturer of the UPS system on the equipment and within the product instructions as required by UL 1778.

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet as viewed from the front of the cabinet. See Figure 3 for line-up-and-match configuration views. Figure 3. Eaton 93PM 100 kW UPS and Two 93PM Integrated Battery Cabinets.

Is battery replacement a part of normal maintenance?

Battery replacement in UPS equipment is considered part of normal maintenance and is evaluated as part of the original Certification (Listing). The necessary markings and instructions to ensure continued safety and certification are identified in the instructions and the individual certification documentation. Markings and Installation Instructions.

Where is the battery cabinet located?

The battery cabinet may be located to either the right or left of the UPS cabinet. The recommended location is to the right of the UPS cabinet. This procedure assumes the battery cabinet is located to the right of the UPS

cabinet. 21.

Where is the UPS battery cabinet located?

The recommended location is to the right of the UPS cabinet. This procedure assumes the battery cabinet is located to the right of the UPS cabinet. 21. If line-up-and-match installation, remove the rectangular knockout on the bottom front side of the UPS and the IBC (see Figure 15).
