

Battery cabinet tightening system

Overview

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.

What are everexceed battery cabinets?

EverExceed Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of the higher and new requirements of these application backup.

Why do we need a battery enclosure?

When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible. The role of batteries in producing emergency power supply for industries across the country is vital for our infrastructure. C&C Power Battery enclosures are configured to meet the need of all types of applications.

What are Arimon battery cabinets made of?

All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors. Arimon UPS backup battery cabinets offer breaker or fuse protection up to 800 Amps.

What size battery cabinet does Arimon offer?

Arimon offers several standard monobloc or top terminal battery cabinet sizes for 10 kVA to 125 kVA UPS systems accommodating monobloc batteries from 100 WPC (64 batteries) to 540 WPC (40 batteries) or can work with you on even larger custom battery cabinet solutions if needed.
