

Bolivia flow battery project

Overview

Does Bolivia have a lithium plant?

This follows a deal between Bolivia's state-run lithium company, Yacimientos del Litio Bolivianos (YLB), and a Chinese consortium. CATL agreed to invest over \$1 billion in the project's first stage for rights to develop the two lithium plants. Despite being a global leader in electric vehicle batteries, CATL does not currently produce any lithium.

How much will Bolivia invest in lithium?

The total investment in the Bolivian lithium industry is expected to reach around \$9.9 billion. This follows a deal between Bolivia's state-run lithium company, Yacimientos del Litio Bolivianos (YLB), and a Chinese consortium. CATL agreed to invest over \$1 billion in the project's first stage for rights to develop the two lithium plants.

Can China develop EV batteries in Bolivia?

A giant Chinese battery company, Catl, has won a bidding process to develop Bolivia's huge lithium reserves. The ultra-light metal is used in electric vehicle (EV) batteries, production of which is expected to soar as fossil fuels are phased out.

Will Bolivia build a lithium plant in the salt flats?

The agreement focuses on Bolivia's salt flats, known for their vast lithium resources. Bolivian President Luis Arce confirmed the plan to build two lithium plants in the country's Uyuni and Oruro salt flats after meeting with CATL executives. He announced a \$1.4 billion investment and hinted at possible future investments up to 2028.

Why did CATL invest \$1.4 billion in Bolivia?

Chinese battery giant CATL confirmed a \$1.4 billion investment to help develop Bolivia's huge but largely untapped reserves of lithium, cementing on

Sunday a partnership with the government made in January.

Will Bolivia start exporting lithium batteries in 2025?

Mr Arce said Bolivia was still negotiating with other foreign companies for potential partnerships. Reuters news agency says they include US firm Lilac Solutions, Russia's Uranium One Group and three other Chinese bidders. Mr Arce said the goal was to start exporting lithium batteries in the first quarter of 2025.

Bolivia flow battery project

LiFePO ₄ Battery,safety
Wide temperature: -20~55℃
Modular design, easy to expand
The heating function is optional
Intelligent BMS
Cycle Life:> 6000
Warranty:10 years
