

Botswana Wind-Solar Energy Storage Wind-Solar Power Station

Overview

The Botswana energy storage project is quietly becoming Africa's dark horse in the clean energy race. As of March 2025, this \$120 million initiative has already deployed enough battery capacity to power 15,000 homes during peak demand. Will a 100 MW solar plant be built in Botswana?

State-owned Botswana Power Corp. has signed a power purchase agreement with a consortium of Chinese enterprises and other companies to construct a 100 MW solar plant in southern Botswana. The project is expected to start generation by the end of 2025.

Does Botswana utilize solar energy?

Botswana has one of the highest levels of solar insolation in the world, but until recently, there were no reports of significant use of solar energy. However, as of September 2012, the first solar power generation plant in the country has been opened. The Botswana Renewable Energy Conference was held on 11-12 August 2014.

What is the solar potential of Botswana?

Botswana has a significant solar potential receiving over 3,200 hours of sunshine per year with an average insolation on a flat surface of 21 MJ/m. This rate of irradiation is among the highest in the world. There is also wind potential.

How long will Botswana Power Plant last?

The deal involves an engineering, procurement and construction contract, with operation and maintenance of the power plant for 25 years. The facility is expected to start generation by the end of 2025. Botswana's President, Mokgweetsi Masisi, said the project is a key milestone in the country's energy transition.

When will Botswana start generating electricity?

The facility is expected to start generation by the end of 2025. Botswana 's President, Mokgweetsi Masisi, said the project is a key milestone in the country's energy transition. "Our journey toward energy security and transition has begun in earnest and is unstoppable.

Who is sinotswana green energy?

The agreement is in place between Botswana Power and Sinotswana Green Energy, a consortium of Chinese and Botswana companies, jointly established by China Habor Engineering Co., China International Water and Electric Corp., and New Energy Company Proprietary Ltd., a local company. A tender for the project took place last year.
