

Brazil's energy storage export share

Overview

What is driving Brazilian energy storage demand?

An unreliable grid is driving Brazilian energy storage demand. The world is set to have more than 760 GWh of energy storage capacity by 2030, led by Chinese and United States markets dominated by utility-scale systems.

Which country exports the most electricity to Brazil?

Argentina is Brazil's main electricity export market.⁹⁴ Brazil imports electricity from Uruguay to help meet peak electricity demand.⁹⁵ Brazil is a member of the Southern Common Market (Mercosur), which promotes energy integration among its member countries.

Why is Brazil's natural gas market expanding?

Brazil's natural gas and liquefied natural gas (LNG) market is expanding because of rising domestic consumption, infrastructure development, and market reforms. Natural gas accounted for 7% of Brazil's total energy production in 2021, up from 5% in 2011, and natural gas accounted for 12% of total energy consumption in 2021, up from 8% in 2011.

What is the Brazilian energy balance?

The Brazilian Energy Balance consolidates and reports yearly an extensive research and information related to the supply and demand of Energy resources in Brazil. The Brazilian Energy Balance consolidates and reports yearly an extensive research and information related to the supply and demand of Energy resources in Brazil.

Will Brazil install a battery energy storage system in 2024?

A study by Brazilian consultancy Greener has indicated that the country installed 269 MWh of energy storage capacity in 2024, growth of 29% from 2023. Demand for battery energy storage system (BESS) components grew 89% in Brazil from 2023 to 2024 and most of the resulting systems are likely

to be installed in 2025.

Which sectors use the most energy in Brazil?

In Brazil, the industrial and transportation sectors use most of the energy. Crude oil and other petroleum liquids production contributes significantly to Brazil's total energy production, accounting for 54.0% of total energy production and 44.2% of total energy consumption in 2021 (Table 1).

Brazil s energy storage export share
