

Cameroon home solar power generation system

Overview

Who is responsible for promoting PV power generation in Cameroon?

Although Cameroon has formulated a basic policy aimed at promoting PV power generation in its long-term renewable energy development plan, it has not clearly defined which department is responsible for promoting the exploitation of solar energy resources, notably PV power.

Are solar energy systems a sustainable solution in Cameroon?

In Cameroon, where energy demands are growing rapidly alongside economic development, solar energy systems offer a sustainable and efficient solution to meet the country's energy needs.

What is the financing structure for solar power generation in Cameroon?

The financing structure is sharply unbalanced. The financing of solar PV power generation in Cameroon comes mostly from public-private partnerships (PPP) and accounts for more than 97.89% of total investment in the sector.

Why is photovoltaic power generation important in Cameroon?

Photovoltaic power generation has become an important pillar of the energy development strategies of all countries. Cameroon is committed to attaining 25% of energy production from renewable energy sources, with solar energy contributing up to 6% of total energy production in the country by 2035 (Power Africa, 2019).

Does Cameroon have a solar power station?

The government, through the national utility Energy of Cameroon (ENEO) and the Electricity Development Corporation (EDC), is equally involved in the development of solar PV power stations, which supplies additional electricity to localities that are not connected to the national grid network (MINEE, 2014).

Are solar power plants a reality in Cameroon?

The facilities, which have been in service for several months, serve the northern part of Cameroon. Large-scale solar energy production is now a reality in Cameroon. On Friday 22 September 2023, Cameroon's Minister of Water and Energy Gaston Eloundou Essomba inaugurated two photovoltaic solar power plants in the Far North and North regions.
