

Can a small outdoor power supply in Thailand be used

Overview

What type of power outlet does Thailand use?

Thailand uses power outlets and plugs of types A, B, C & O. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type A - Mostly used in the US, Canada, Mexico, Central America, China and Japan.

Do I need a power plug adapter in Thailand?

Since your devices voltages are similar to those in Thailand, you only need to worry about the plug adapter. Notice: If your power plug only has 2 pins (doesn't require a grounding hole), it still can be used if you force the head hard enough into the electrical outlets.

Do device plugs work in Thailand?

Most device plugs will work with the outlet types A and B in Thailand but an adapter will be needed for type C. Also, the voltage in Thailand is different from American voltages. Please note: an adapter will be needed if your device plug has a grounding pin and you are trying to use a Type A outlet.

Do I need a power converter for Thailand?

The simple solution would simply be to buy the best universal adapter for Thailand that includes a power converter. This is due to the many different types of plug and possible differences in voltage and frequency. However, if you live in certain countries you might not need an adapter for Thailand!.

What is a Thai power outlet?

Our guide on "local things to do in Bangkok" will help you pack the right travel

necessities for your trip. A typical Thailand power outlet includes 2 slots with a grounding hole. Thailand voltage is 220 Volts at 50Hz. But what does it mean?

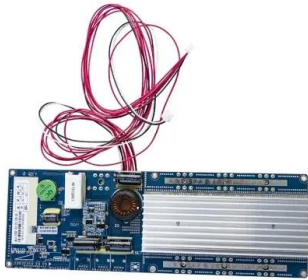

It means any device with the below plugs will fit in most Thai electrical outlets:.

What type of plug is used in Thailand?

Although type G plugs (British) with 3 rectangular pins can be used in some places, they are less common and in most cases require an adapter. In terms of voltage and frequency, most British devices are 220-240Volts which are similar to the ones used in Thailand. So all you need to do is to get the right adapter. Lucky!
