

Chad Solar Smart Photovoltaic Site

Application scenarios of energy storage battery products

Overview

The power plant is located southwest of the town of Djermaya, approximately 30 kilometres (19 mi), north of , the capital and largest city in the country. The project site measures about 100 hectares (250 acres).

There are three main objectives in the development of this solar farm. The first objective is to increase the grid supply of electricity in Chad. Secondly, Chad depends primarily on electricity derived from expen.

In July 2020, armed with a 25-year , the owners of D'jermaya Solar Company advertised for qualified contractors to bid for the (EPC) cont.

The project has received partial funding from the , the , the Emerging Africa Infrastructure Fund and . Total cost has been budgeted at €60.3 millio.
