

China-Africa double-glass photovoltaic module custom manufacturer

Overview

What is a double glass module?

Double glass module: the front and back two pieces of glass + photovoltaic cells are compounded by encapsulation film. Traditional double glass module package: EVA+EVA, EVA+POE, POE+POE. Jiaying Fuying double glass module package: PVB+PVB.

What is Jiaying Fuying double glass module package?

Jiaying Fuying double glass module package: PVB+PVB. The life cycle is longer, the warranty for ordinary modules is 25 years, and the warranty for double glass modules is 35 years. The attenuation is low, the attenuation of the traditional module is about 0.7%, and the double glass module is 0.5%.

What are the different types of Photovoltaic Glass Technologies?

To meet specific requirements, we offer two advanced photovoltaic (PV) glass technologies: amorphous silicon and crystalline silicon, both fully customizable. Our glass can be customized to block the heat that enters the building and to provide the best insulation, thus avoiding the use of air conditioning and heating.

What is Photovoltaic Glass?

Our photovoltaic glass offers a cutting-edge solution for both new construction and renovation projects. When integrated into ventilated façades, this glass enhances building aesthetics while providing key benefits such as radiation protection, thermal and acoustic insulation, and improved occupant comfort.

China-Africa double-glass photovoltaic module custom manufacture

Gaorunenergy - Turnkey Solar Panel Production Line

Suzhou Gaorun is global turnkey solar panel production line solutions suppliers, Headquartered in Suzhou, Jiang-su province, China. Since 2007, we started ...
