

Congo Kinshasa villa solar power generation system

Overview

What is Kinshasa Solar City?

The two-phase scheme, known as the Kinshasa Solar City, includes the installation of a number of solar photovoltaic (PV) parks near the capital of the country. The 600-MWp phase one was initiated on August 19 and is expected to be completed within a year.

What is RS50 Kinshasa solar PV Park?

RS50 Kinshasa Solar PV Park is a 20MW solar PV power project. It is planned in Kinshasa, Democratic Republic of the Congo. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage. It will be developed in a single phase.

Where is Kinshasa Solar City solar farm located?

Kinshasa Solar City solar farm is an announced solar photovoltaic (PV) farm in Menkao, Maluku Commune, Tshangu District, Kinshasa, DR Congo. Read more about Solar capacity ratings . The map below shows the approximate locations of the solar farm phases:.

Who owns Kinshasa electricity?

The city-wide project network has a power purchase agreement signed by national utility Société nationale d'électricité and the provincial government of Kinshasa with the Sun Plus subsidiary of U.S. real estate investor The Sandi Group. The 25-year deal will see the power company buy the electricity generated for \$0.095/kWh.
