

Construction site outdoor power container

Overview

What is a pods construction site storage container?

Fortunately, PODS construction storage containers offer all of that and more. PODS construction site storage units are the convenient, flexible, and affordable solution for construction managers, roofers, plumbers, electricians, sheet metal workers, flooring installers, or any construction trade.

Where can I store my construction materials?

Buy materials in bulk and use our sturdy, weather-resistant storage site containers on the job or store them securely at a PODS Storage Center near you. Our construction storage units offer the flexibility to move containers between job sites, or to be kept at a secure, local PODS Storage Center.

Why should you rent a pods construction storage container?

Renting a PODS construction storage container helps avoid having workers idle while they wait for inventory deliveries. Buy materials in bulk and use our sturdy, weather-resistant storage site containers on the job or store them securely at a PODS Storage Center near you.

What is a construction site container?

Herocont offers turnkey solutions for modular and prefabricated buildings, such as furniture and industrial kitchen equipment! Construction site container or construction container is a modular container, resistant to harsh conditions in various construction sites.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.

How many cubic feet is a construction container?

Choose from the following construction containers: 7-foot container: 385 cubic feet of space for light storage needs, including tools and equipment. 12-foot container: 689 cubic feet of space for moderate jobsite storage needs. 16-foot container: 857 cubic feet of space for big jobs.
