

# Containerized generator set

## Overview

---

What is a containerized generator set?

The durable and robust Containerized Series generator sets are ideally suited for independent power producer (IPP), mining, oil and gas, or any project where harsh conditions, challenging environments and the demand for reliable, continuous remote power exist.

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

Why should you choose a containerized generator set?

Quicker startups for shorter deployment times. Robust Performance -Fully integrated containerized generator set is optimized for diverse critical power requirements regardless of environmental conditions.

What are factory-packaged containerized generator sets?

Our factory-packaged containerized generator sets are designed to address these challenges comprehensively. They offer a reduced footprint, improved ease of transportation and significantly shorter lead times.

What is a centumtm force containerized generator set?

Centum™ Force containerized generator set are engineered for fast start-up and optimized for diverse critical power requirements. Each generator is equipped with an advanced paralleling control module, allowing it to support a fast start of multiple units paralleled for power demands in emergency situations.
