

Cyprus Photovoltaic Power Station Energy Storage Wholesale Manufacturer

Overview

Are there private power plants in Cyprus?

As a precondition to the accession of Cyprus to the European Union, the local market for electricity generation has been opened to private companies, but so far no private power plants have been built, although four licences have been granted by Cyprus Energy Regulatory Authority.

Who is cypenergia?

Since 2012 Cypenergia has been providing turnkey solar solutions adapted to each customer's individual needs. Our achievements place our company among the leaders in the field of energy, in Cyprus, with outstanding price-performance ratio solar plants that transform solar energy into green assets by maximizing value and mitigating risks.

Why should you choose cypenergia for a solar development project?

Our experience and recognized capabilities have enabled us to manage all the areas within a Solar Development project from utility-scale, centralized energy solar and distributed solutions. CYPENERGIA has the capability to develop, construct, operate and optimize the operation of solar projects utilizing photovoltaic (PV) technology farms.

Does cypenergia offer a maintenance service?

Cypenergia launched a new maintenance service for these systems and to provide a hassle-free service to its clients. Contact our friendly sales team with your specific needs and a member of our team will get in touch with you directly to discuss the appropriate solution for your home, business, or property.
