

DC voltage 220V inverter

Overview

An inverter converts a 220 Volt DC voltage (battery) into an AC voltage (230V-50Hz). The standard output voltage is 230 Volt, 50Hz with a pure sine wave. This means that this inverter supplies the same type of voltage as the wall socket. This allows any electrical device to work on it.

DC voltage 220V inverter

Sample Order
UL/KC/CB/UN38.3/UL
