

Danish lithium battery inverter manufacturer

Overview

Who is Lithium Balance?

LiTHIUM BALANCE was founded in 2006 as an ambitious start-up at the Danish Technological Institute. From the very beginning we were determined to push the battery-based electrification technology forward by developing, manufacturing and selling Battery Management Systems (BMS) for lithium ion battery technologies.

Why is battery storage important in Denmark?

Denmark has emerged as a significant player in battery storage technology, playing a vital role in the global transition to renewable energy. As demand for electric vehicles and clean energy solutions grows, the importance of battery storage in the Danish market continues to rise.

How can Denmark develop a new energy technology?

If Denmark shall succeed in the development and implementation of new energy technologies such as energy storage and conversion, a broad knowledge of political and legal frameworks, economic models, the role of civil society as well as new forms of organization and collaboration across sectors and disciplines is necessary.

What is Danish Center for energy storage?

Danish Center for Energy Storage, DaCES, is a partnership that covers the entire value chain from research and innovation to industry and export in the field of energy storage and conversion. The ambition of DaCES is to strengthen cooperation, sharing of knowledge and establishment of new partnerships between companies and universities.

Are lithium ion batteries a viable energy storage solution?

Batteries, in particular lithium ion batteries, are among the most well-known and economically feasible technologies for energy storage. As of today it is the

only realistic solution for batteries in electric cars, mobile phones and similar mobile devices. But there is a downside.

Danish lithium battery inverter manufacturer

Containerised Solutions

We partner with leading battery and fuel cell vendors to design a class-approved solution that fulfils your requirements, whether you are looking to use peak ...
