

Direct sales price of household energy storage power supply in Laos

Overview

What is the price of electricity in Laos?

Laos, September 2022: The price of electricity is 0.034 U.S. Dollar per kWh for households and 0.000 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

What is the price framework for electricity imports from Laos?

(KPL/VNA) The Ministry of Industry and Trade (MoIT) has issued a decision approving a price framework for electricity imports from Laos starting from December 31, 2025. The maximum price for hydroelectric power plants is set at 6.78 US cents/kWh, down from the current rate of 6.95 cents/kWh.

Should Laos diversify its power supply?

To maintain power supply stability, she suggested that Laos diversify its sources of power to include more solar and wind energy. The price of both has dropped globally and, based on data collected by the Stimson Centre, the price of these renewables is also getting cheaper in the Mekong region.

Why did electricity prices increase in Laos in 2021?

According to the data, the average price of electricity in Laos increased by about 1.5% annually from 2013 to 2018 before seeing a 3% drop in 2019 due to a price-restructuring policy designed to lower electricity rates for households that consume less than 150kWh a month, which EDL classifies as poor families. In 2021, EDL raised prices by 2%.

How much energy does Lao PDR produce?

In 2018, the Lao PDR's total primary energy supply (TPES) was 6.38 million tonnes of oil equivalent (Mtoe), and the energy mix consisted of hydropower, oil, coal, and biomass. As there were many power plants in the Lao PDR generating electricity for export in 2018, the export figure reached 26,708

gigawatt-hours (GWh), the equivalent of 2.65 Mtoe.

Will electricity revenue increase in the Lao PDR?

Although this revenue is insignificant in the short to medium term, in the long term it will increase because the government plans to assume ownership of private power plants. The electrification rate in the Lao PDR was 93.79% in 2018,3 and the government is striving to raise this to 98.00% by 2025.
