

East Africa Container Power Generation

Overview

Who is East African power?

An integrated renewable energy development company delivering affordable and reliable clean energy. East African Power is a long-term, SR-driven business developing, building, and operating utility-scale, small and medium hydro and solar power plants in Sub-Saharan Africa.

Who is East African power (EAP)?

Plus. East African Power (EAP) is an integrated renewable energy development and engineering company delivering affordable and reliable clean energy solutions. We are a long-term, social-impact-oriented IPP business developing, designing, building, and operating hydro and solar power plants in Africa.

What makes our containerised solar power generation units special?

“What makes our containerised solar power generation units special,” says Tobias, “is our use of international lquality engineering and components, while still producing local content that allows us to offer a price advantage and local support. We pride ourselves that our energy solutions are made in Africa for Africa.”
