

Energy Storage Industry Implementation Plan

Overview

What is the implementation plan for bulk energy storage?

The Implementation Plan provides an operating framework for the program, with additional details to be provided in Bulk Energy Storage program solicitations. The plan begins with background on the 2019 Climate Leadership and Community Protection Act (the “Climate Act”) and the 2022 Energy Storage Roadmap (the “Roadmap”) as updated in March 2024.

Does the energy storage strategic plan address new policy actions?

This SRM does not address new policy actions, nor does it specify budgets and resources for future activities. This Energy Storage SRM responds to the Energy Storage Strategic Plan periodic update requirement of the Better Energy Storage Technology (BEST) section of the Energy Policy Act of 2020 (42 U.S.C. § 17232 (b) (5)).

How much funding is needed to implement the energy storage requirement?

Funding necessary to implement this requirement is estimated to be approximately \$3.5 million across all programs and will draw on funding authorized for implementation support activities in the 2024 Energy Storage Order.

Why are energy storage resources important?

Energy storage resources have become an increasingly important component of the energy mix as traditional fossil fuel baseload energy resources transition to renewable energy sources. Currently 23 states, plus the District of Columbia and Puerto Rico, have 100% clean energy goals in place.

What is New York's energy storage plan?

Accordingly, the 2024 Energy Storage Order directed NYSERDA “to include in each bulk procurement a target of 20 percent of long-duration, 8-hour energy storage resources, to move New York towards installing the necessary amount

of LDES by the mid-2030s.” 13.

When did the New York State Energy Storage Commission approve a plan?

On June 20, 2024, the Commission approved the Order Establishing Updated Energy Storage Goal and Deployment Policy, which adopted the expanded statewide 6 GW deployment goal and approves many of the Roadmap recommendations for achieving the goal. 3 On October 18, 2024, NYSERDA filed an Implementation Plan Proposal for public comment.
