

Energy storage battery 215Kw

Voltage range

636V-876V

Rated voltage

768V

Cell type

Lithium iron phosphate

Overview

What is a 215kwh C & I energy storage battery?

The 215kWh C & I energy storage battery utilizes LFP batteries for safer and more efficient performance. The distributed design allows the system to have the ability to expand flexibly, and the flexible module combination easily meets the increase in energy demand, while maintenance and overhaul are also more convenient.

Why should you use a battery energy storage system?

Shave offload peaks for your commercial or industrial business with reliable battery energy storage systems. Store excess energy from your solar panels to increase PV self-consumption and decrease dependence on the expensive grid for an efficient power storage system.

Does his-energy offer a turnkey battery storage solution?

At HIS-Energy our aim is to deliver our clients with fully integrated turnkey battery storage solutions. HISbatt 215-A comes with an integrated cooling system (HVAC), a fire suppression system, and a power inverter installed with the safest LFP battery cells.

What is his-energy's premium Battery Cabinet?

HIS-Energy's Premium Battery Cabinet Solution: Engineered for Both Outdoor (IP54 Rated) and Indoor Installations. From peak shaving and emergency power supply to powering EV charging stations, our smart HIS- EMS seamlessly manages your energy needs.
