

# **Estonian Desert Photovoltaic Container**

## Overview

---

What is the largest solar project in Estonia?

Together with our lead partner Connecto, Sunly, the project developer and investor, has awarded us the contract for the engineering and construction of the Risti 244 MW solar power plant in Estonia. This impressive solar project is currently the largest PV project in the Baltic States and in Estonia in particular.

Does Estonia have a good energy policy?

So far, it has been a key objective of Estonian energy policy. Being a Nordic country with less sunlight than in Western and Southern Europe, Estonia has achieved a solid place at the top with its 1,923 sunny hours in the year.

How has the transition to a 15-minute balancing period impacted Estonia's energy storage?

State-owned energy company Eesti Energi management board member Kristjan Kuhi recently highlighted to Energy-Storage.news Premium that the transition to a 15-minute balancing period and the desynchronisation of the Baltic electricity system from the Russian grid have spurred growth in Estonia's energy storage sector.
