

Explosion-proof battery cabinet manufacturer wholesale price

Overview

What is an explosion-proof cabinet?

An explosion-proof cabinet is a type of cabinet that adopts a double-layer steel structure and undergoes various treatments such as pickling, phosphating, and epoxy resin electrostatic spraying. It can burn for 2 hours at a temperature over 1,000 degrees without the internal temperature exceeding 200 degrees.

What are explosion proof battery enclosures?

Internally, they are provided with a non-static PVC lining. And last, but certainly not least, to cover just about every conceivable environmental eventuality, our explosion proof battery enclosures are good for temperatures ranging from minus 40 to plus 55 degrees Celsius.

How can I check the quality of safetyspac lithium-ion battery charging & storage cabinet?

Just unpack your “Safetyspac Lithium-Ion Battery Charging & Storage Cabinet” and plug it into your wall socket. 1) How can I get a sample to check your quality?

After price confirmation, you can require for samples to check our quality. We will provide you sample for free (value under USD15), you just afford the express freight.
