

French solar power market

Overview

What is the solar PV market size in France?

The cumulative installed capacity for solar PV in France was 17,410.4MW in 2022. It is expected to achieve a CAGR of more than 12% during 2022-2035. The France Solar Photovoltaic (PV) market research report offers comprehensive information and understanding of the solar PV market in France.

Does France have a solar energy sector?

The exponential growth of the solar photovoltaic energy sector in France has never stopped since its inception in the early 2000s. In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year.

How much solar energy does France have in 2022?

In 2022, France's solar PV installed capacity accounted for more than 17.41 GW. Solar PV had over 26% share in the total renewable energy mix. This is due to increasing projects on solar energy across the country. France has announced a new 10-measure plan to accelerate the development of photovoltaic energy, featuring new and existing provisions.

How will France solar PV market perform in 2022?

Turn insights on financials, deals, products and pipelines into powerful agents of commercial advantage. The cumulative installed capacity for France solar PV Market was 17,410.4MW in 2022. It is expected to achieve a CAGR of more than 12% during 2022-2035.

How much solar power does France have in 2023?

In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year. Despite this high ranking, solar PV power generation was

still behind hydropower and wind renewable energy production.

What are the key companies in the France solar photovoltaic market?

The key companies in the France solar photovoltaic market are Voltalia SA, Vergnet SA, Total Eren SA, Neoen SA, and EDF Renewables SA. Voltalia SA: It is a producer and service provider of renewable energy. The company's service offerings include project development, project financing, engineering services, procurement, and construction.
