Overview

The Ayémé Solar Power Station is a proposed 120 megawatts solar power plant in Gabon. The power station is under development by Solen, an independent power producer (IPP). The solar farm will be developed in two phases of 60 megawatts each. The energy generated at this power station is expected to.

The power station is under construction in the village of Ayémé Plaine, located in , , approximately 30 kilometres (19 mi), north-northeast of Libreville.

The company that owns and is developing this power station, is called Solen. Solen specializes in building solar power stations in Africa. The company is based in France. In addition, Solen is.

As of March 2022, Gabon's installed electricity generation capacity was reported as 750 megawatts. Of this, about 50 percent is sourced from . The remaining portion is sourced from hydropower and fossil-fuel sources. The Government of.
