

The diagram illustrates a Smart Grid & Home system. At the top, a sun icon is labeled "PV Module". Below it, a house is shown with a cutaway view of its interior. The house has three floors: a top floor with a living area, a middle floor with a bedroom, and a bottom floor with a living area and stairs. A blue line represents the energy flow. It starts from the "Grid" (a power line tower) on the right, goes to an "Energy meter" on the middle floor, then to an "AC distribution" unit on the middle floor, and finally to a large battery unit labeled "AI-W5.1-B-ESS" on the left. From the battery, a blue line goes back to the "PV Module". A blue line also goes from the "Energy meter" to a "Home load" (a light fixture) on the bottom floor. The text "SMART GRID & HOME" is written at the bottom.

Gabon energy storage photovoltaic panel manufacturer

[Top 20 Solar Panel Manufacturers in the World](#)

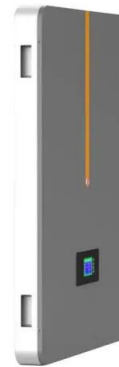

The top 20 solar panel manufacturers in the world include Sunpower, Hanwha Q Cells, and RECSolar due to their overall performance.
