

German Battery BMS

Overview

Who makes BMZ batteries?

The BMZ Group develops and produces high-tech battery systems, which are installed worldwide in the most diverse products of well-known brands. In addition to OEM products, BMZ also manufactures battery systems with its own brands.

What is a battery management system?

The battery management systems designed by ME play a crucial role in optimizing the performance and longevity of EV batteries. These advanced systems ensure efficient charging, discharging, and monitoring of battery safety and health, maximizing the overall efficiency and range of electric vehicles.

What is a BMZ battery system?

This system enables homeowners to maximise their energy independence and sustainably reduce their energy costs. The BMZ Group develops and produces high-tech battery systems, which are installed worldwide in the most diverse products of well-known brands.

What is a battery management control unit (SBS)?

The SBS is an integrated battery management control unit. It combines an accurate current sensor with a high performance battery management control unit. The control unit contains all features you would expect from a modern automotive BMS as well as some unique additional functionalities.

What is a Bacs battery system?

BACS is the perfect system for all lead-acid battery technologies and is compatible with a wide range of battery chemicals and casing concepts:.

What is a Bologna battery management unit?

The control unit contains all features you would expect from a modern automotive BMS as well as some unique additional functionalities. ISO26262 Certification on Product Level: The Bologna Battery Management Unit is ISO26262 certified and supports both 12V and 24V supply voltages.
