

High-voltage inverter market share

Overview

The global power inverter market size was valued at USD 46.57 billion in 2023 and is projected to grow from USD 53.49 billion in 2024 to USD 209.74 billion by 2032, exhibiting a CAGR of 18.62% during the fo.

Why is the high output voltage inverter market growing?

The high segment is dominating the market due to the growing importance of the power generation, distribution, and transmission sectors. In addition, the increased size of PV power plants in significant commercial & industrial and utility installations is fueling the growth of the high output voltage inverter market during the forecast period.

What is the global power inverter market size?

Looking to go beyond insights?

Explore our premium consulting services designed to help you gain a competitive edge. The global power inverter market size was valued at USD 46.57 billion in 2023 and is projected to grow from USD 53.49 billion in 2024 to USD 209.74 billion by 2032, exhibiting a CAGR of 18.62% during the forecast period.

Why is the power inverter market growing?

The heavy usage of UPS is responsible for the constant growth of the power inverter market. Major players are launching new products in the market. For instance, in February 2024, Schneider Electric, a global leader in energy management and automation, launched the Easy UPS 3-Phase 3M Advanced in Mumbai, India.

Which solar inverter company has the most market share in 2021?

Huawei's market share stayed at a stable 23% in 2021 while Sungrow ranked a close second at about 21% growing from approximately 19% in 2020. Second runner-up Growatt accounted for 7% of market share, replacing SMA which slid down to sixth position. Together, the top three vendors control over half of the world's solar PV inverter market.

Which region dominated the power inverter market in 2023?

Asia Pacific dominated the global market with a share of 30.73% in 2023. A power inverter converts Direct Current (DC) to Alternating Current (AC). The power inverter market growth is attributed to the growing solar industry.

Why is Asia Pacific a major market for power inverters?

In addition, Asia Pacific is one of the major players in the production of power inverters as well as one of the major regions in terms of demand as it has rising consumers of electric vehicles, solar energy, and others.

High-voltage inverter market share

High Voltage Inverters Market Size, Share, Growth, Trends, ...

The High Voltage Inverters market report is a perfect foundation for people looking out for a comprehensive study and analysis of the High Voltage Inverters market.
