

How much does a 12V photovoltaic panel cost

Overview

Solar panels cost between \$2.55 and \$3.15 per watt. For an average 6.5 kW solar system, you'll spend anywhere from \$16,600 to \$20,500 before accounting for tax credits or rebates. How much does a 12 kW solar panel cost?

The average cost of a 12 kW solar panel installation on EnergySage is \$20,754 after the federal tax credit. You'll probably save anywhere from \$34,000-\$120,000 over 25 years by going solar. Solar panels are just 12% of the total cost of a solar panel installation.

How much does a solar panel installation cost?

Solar panel installation costs vary by the installation company and project scope, making it challenging to pinpoint exactly how much you'll pay to have a pro install your solar panels. However, the U.S. Department of Energy estimates that installers add around \$2.25 per watt to the cost of a solar panel installation.

How much does a CPV solar system cost?

Concentrated photovoltaic (CPV) panels are \$0.80 to \$1.10 per watt. While not as well-known as other types of panels, CPV panels are highly efficient and may grow in popularity. A 6 kW solar system would cost \$4,800 to \$6,600. A single solar cell costs about \$0.30 and most panels use 60 or 72 cells. The more cells in a panel, the higher the cost.

How efficient are solar panels?

The average solar panel is around 21% efficient, according to the Center for Sustainable Systems (CSS). However, most residential solar panels range from 18% to 22%. Commercial and utility solar panels can have much higher efficiencies, as much as 24%, while some lower-quality solar panels may have slightly lower efficiencies of around 17%.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around \$100 to \$350, on average.

How much does a solar inverter cost?

Inverter: A solar inverter converts the generated DC electricity into AC electricity that can be used to power your home. The cost of an inverter depends on its size and efficiency, but these devices typically cost between \$1,000 and \$3,000. **Mounting system:** This is what holds rooftop solar panels in place.
