

How much does a BESS photovoltaic panel cost in the UK

Overview

This table contains information on the cost per kW of solar PV installed by month.

As of September 2025, a 4kW system is priced between £6,600 - £8,100 and can save you around £1,274 annually, with a break-even point in about 6 years. You can break even on the cost of a typical 4kW solar panel system in just 6 years. How much do solar panels cost?

Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 – £1,500 whereas polycrystalline solar panels cost about £900 per kW. When it comes to thin-film solar panels, these cost between £400 and £800 per kW.

How much does a photovoltaic system cost in the UK?

- A household in the UK installs a 5kW photovoltaic system costing £8000 (average cost), which would generate approximately 4320 kWh of electricity annually.
- The annual SEG income in the UK would be £324 per annum.

Is now a good time to get solar panels in the UK?

Combine that with the falling costs of solar battery storage, and the fact the energy price cap rose by a further 1.2 per cent in January 2025 after increasing 10 per cent in October 2024, you'll find that now is a great time to get solar panels in the UK.

How much does a solar PV installation cost per kilowatt?

The mean average cost per kilowatt of a small solar PV installation (0-4kW) is above £2,000 for the first time since these records began in 2013/14. Prices for larger solar installations (4-10kW) increased even more dramatically - by 31% since 2021/22.

How much do monocrystalline solar panels cost?

The exact cost of monocrystalline solar panels will vary depending on the manufacturer and the size of the solar panels. As a rule of thumb,

monocrystalline solar panels have their highest price point at about £1 – £1.50 per Watt. Polycrystalline solar panels, on the other hand, have a lower efficiency rating than monocrystalline panels.

How much do thin-film solar panels cost?

When it comes to thin-film solar panels, these cost between £400 and £800 per kW. The average cost of solar panels is £250 to £350 per m². Find out what costs are involved and what you can expect.
