

 SolarHome Systems

How much photovoltaic panels can generate electricity in Venezuela

A black rectangular SolarHome Systems LiFePO4 battery is shown against a white background. The battery has a black carrying handle on top. The label on the side of the battery includes the text "SOLARHOME", "LiFePO4", and "12V 100Ah". There are also some smaller, less legible text and symbols on the label.

A large array of solar panels is installed in a field, stretching towards the horizon. In the background, there are mountains and a few small buildings. The sky is clear and blue.

Overview

The annual generation of installed photovoltaic (PV) capacity in Venezuela is approximately 1.6 MWh per kWp. ² The average cost of electricity in Venezuela is around \$0.046 per kWh for households and \$0.053 per kWh for businesses, as of December 2023. ³
