

Huawei Japan Valley Electric Energy Storage Device Supplier

Overview

What are Huawei energy storage systems?

In the rapidly growing large-scale energy storage industry, Huawei's energy storage systems have earned widespread recognition in the Japanese market. Huawei is introducing the next-generation LUNA2000-4472-2S and LUNA2000-4.5MWh battery energy storage systems, both offering higher energy density through the latest liquid cooling technology.

When will Huawei start selling a large-scale battery system in Japan?

According to NikkeiAsia, Huawei will start selling the large-scale battery system for renewable energy storage in Japan in March 2022. As per the information, Japan is moving away from fossil fuels and shifting to renewable energy. The nation aims to have renewables account for 36% to 38% of energy generation by 2030.

Does Huawei have a small battery system in Japan?

However, Huawei is already a supplier of the small household battery system in Japan. Now, the Chinese tech maker will purchase small battery packs from CATL and bundle them into shipping container-sized units that can each store 2,000 kilowatt-hours of energy — roughly 200 times as much as a standard home battery.

What are Huawei's new energy storage solutions?

As global carbon neutrality goals continue to progress, the solar-storage industry is facing unprecedented opportunities. Huawei has introduced its latest energy storage solutions, including the LUNA2000-21-NHS1 for residential use, the LUNA2000-215-2S10 for C&I applications, and the LUNA2000-4472-2S for utility-scale storage.

Who makes large battery systems in Japan?

Japan has its own producers of large battery systems, such as NGK Insulators

and Sumitomo Electric Industries that deliver dozens per year to customers inside and outside Japan.

What is energy storage system products list?

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.
