Should I buy a solar or gas generator?

When deciding between a solar and gas generator, consider your power needs and budget. For lower power needs under 3,000 watts, solar generators are ideal, while gas generators work better for larger demands, especially 10,000 watts or more.

Are solar-powered generators worth it?

Solar-powered generators used to be a niche product geared towards off-the-grid living. They still do the job in that scenario, but as the market matures, with an ever-expanding range of sizes and configurations, the quiet, emissions-free generators are becoming an essential source of backup power for all kinds of homeowners.
