

Industrial and commercial energy storage equipment manufacturers

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

Overview

What are commercial and industrial energy storage solutions?

Our commercial and industrial energy storage solutions offer from 30kW to 30+MW. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options.

Which energy storage systems are best for commercial & commercial facilities?

AlphaESS industrial and commercial energy storage systems can provide the one-stop C&I energy storage solution for commercial and industrial facilities. Our solar PV and battery storage solution help maximize energy independence and reduce grid power demand. Residential & commercial battery energy storage systems available.

What is a C&I energy storage system?

A C&I (Commercial and Industrial) energy storage system is an energy storage solution designed for commercial and industrial applications, such as factories, office buildings, data centers, schools, and shopping centers.

How is energy storage transforming the energy industry?

Advances in digital technologies such as artificial intelligence, blockchain, and predictive analytics are enabling innovative energy storage business models. Energy storage is increasingly being used as a service by industrial energy consumers to incorporate renewable energy and address energy demands more efficiently. [Download our list here.](#)

What are the different types of C&I energy storage systems?

The main types of C&I energy storage systems include battery-based, thermal, mechanical, hydrogen energy storage, and supercapacitors. Battery-based

systems are the most commonly used type of C&I energy storage systems. They store energy using electrochemical batteries such as lithium-ion, lead-acid, or flow batteries.
