

Inverter Solar Inverter

Overview

Solar energy doesn't provide electricity in a format that your table lamp could be powered by. Inverters change the power produced by your solar panels into something you can actually use. Think of it as a currency exchange for your power. You might have a fistful of yen, but until you stop and exchange it.

To recap, there are three kinds of inverters: string inverters, microinverters, and power optimizers. They all transform the power your solar.
