

Irish Electricity Base Station

Overview

How many power stations are in Northern Ireland?

There are three power stations in Northern Ireland: Ballylumford power station, Coolkeeragh power station and Kilroot power station. Northern Ireland Electricity (a subsidiary of ESB Group) owns the transmission and distribution networks.

What is the electricity distribution system in Ireland?

The distribution system delivers electricity from the transmission system to over 2.5 million customers in Ireland. It operates at 110kV in the Dublin area, and at 38kV, 20kV, 10kV, and low voltage (LV) across the country. Because Ireland has a lot of rural areas, the network is much longer per person than in other European countries.

What is Ireland's high-voltage electricity grid?

We plan, manage and develop Ireland's high-voltage electricity grid for a sustainable future. This grid is connected to the lower voltage distribution system managed by ESB Networks, Ireland's Distribution System Operator (DSO), which supplies power directly to homes and business around the country.

Does Ireland have a DS3 grid?

Ireland has several grid energy storage facilities with a combined 1.1 GW power, of which some are bidding into Ireland's DS3 grid services market for frequency control. Approved projects: Ballylumford power station provides over half of Northern Ireland's total generating capacity, and 17% of all-Ireland capacity.

How many people use electricity in Ireland & Northern Ireland?

The electricity sectors of the Republic of Ireland and Northern Ireland are integrated and supply 2.5 million customers from a combination of coal, peat,

natural gas, wind and hydropower. In 2022, 34 TWh were generated.

Who owns electricity generators in Ireland?

Electricity generators in the Republic of Ireland are ESB, SSE, Synergen (70% ESB), Edenderry Power, Endesa-Ireland and Huntstown (Viridian). ESB owns the transmission and distribution networks. The transmission system operator is EirGrid plc, which assumed the role from ESB Networks on 1 July 2006.
