

Jordan Multifunctional Energy Storage Power Supply Specifications

Overview

Is battery energy storage possible in Jordan?

In response to this, Fichtner in collaboration with the Jordanian Ministry of Energy and the transmission system operator, NEPCO, has analyzed the potential for battery energy storage and, in the role of Transaction Advisor, is providing support for implementing a pilot project.

Why was the Jordanian electrical system developed?

The Jordanian electrical system was frequently strengthened and developed to face the electric demands and accommodate the new traditional and renewable power plants.

What happened to Jordan's electricity?

The exchange of electricity with Egypt continued, which led to stability of Jordan's electricity, agreements were concluded to raise the export capacity of the Jericho region, negotiations on contracts to supply Iraq with electricity were made and memos were signed to connect Jordan and Egypt electrically with the GCC countries.

How can Jordan improve the oil industry?

Open the way for refining activity based on the principles of the market. 2.4. Strengthen Jordan's role in providing logistics services for transporting oil products to and from the neighboring countries. 2.5. Increase storage capacities of oil products to meet the international standards and improve the domestic logistics services. 2.6.

Why is Egypt importing natural gas to Jordan?

The flow of Egyptian natural gas imports to Jordan has been resumed since September 2018 to provide additional resources of natural gas supply under agreements and MOUs by both countries.
